Isadore Sharp

The Boy Who Carried Bricks Alton Carter,2015-10-20 Abandoned by his father, neglected by his mother, shuttled between foster homes and a boys ranch for most of his formative years, a young man refuses to succumb to the fate that the world says should be his. Early on, Alton decides he wants a normal life--even if that means standing up to abusive relatives and being teased by his siblings and their friends. Along the way, he keeps an eye out for those who might help lighten the load, never losing hope that such people exist.

The Boy who Carried Bricks Alton Carter,2015 Abandoned by his father, neglected by his mother, and shuttled between foster homes and a boys' ranch, a young African American man refuses to succumb to the fate that the world says should be his.

The Boy Who Survived Alton Carter,2019-12-17 At the age of nine, Alton Carter left home and walked himself into foster care with a dream of someday having a normal life. Not a fancy life. Not a famous life. But what once was the American dream: a place to call home that was warm in the winter and bearable in the summer, with regular meals and a loving family that made sure children made it to school on time each day. Building on his award-winning book *The Boy Who Carried Bricks*, Carter shares more of his own personal childhood stories of trial and survival, making the case that youngsters from such homes should be seen for what they are: not victims but survivors-for they have overcome abuse, neglect, and violence that would cripple most adults.

Aging Out a True Story Alton Carter,2016-11-29 A true story about the perils of turning eighteen and aging out of the foster care system--written by the man who lived it.

The Boy Who Harnessed the Wind William Kamkwamba,Bryan Mealer,2015-02-05 Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir

shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

Don't Call Them Ghosts Kathleen McConnell,2004 What's wrong, Mommy? Even a five-year-old could tell something was wrong. There she was-the same little girl I had seen years ago. She was standing at the front window of Duncan's nursery, holding the rag doll from the old toy box in the attic, silently saying, It's me, it's me... A true ghost story that will give you chills and warm your heart In 1971, Kathleen McConnell and her family moved into a historic home known as the Fontaine Manse. Two days after moving in, she and her husband had an extraordinary experience that left them with no doubt that unseen residents occupied the house, too. This is the true story of how Kathleen McConnell came to know and care for the spirit children who lived in the attic of the mansion-Angel Girl, Buddy, and The Baby. From playing ball with Kathleen, to saving her son Duncan from drowning, the spirit children became part of the McConnell family in ways big and small. Finally, a heart-wrenching decision triggered an unexpected and dramatic resolution to the spirit children's plight. Don't Call Them Ghosts is the inspiring story of the transcendent and lasting power of a mother's love.

If I Ran the Zoo Dr. Seuss,1950 Gerald tells of the very unusual animals he would add to the zoo, if he were in charge.

Four Seasons Isadore Sharp,2009-04-30 The founder of Four Seasons Hotels shares the philosophy and values that have made his legendary brand How did a child of immigrants, starting with no background in the hotel business, create the world's most admired and successful hotel chain? And how has Four Seasons grown dramatically, over nearly a half century, without losing its focus on exceptional quality and unparalleled service? Isadore Sharp answers these questions in his engaging memoir, which doubles as a powerful guide for leaders in any field. He recalls the surprising history of his company, starting with its roots in his father's small construction business, which Sharp joined after getting a degree in architecture. Shifting into hotels wasn't easy, and he learned by trial and error. His breakthrough was a vision for a new kind of hotel, featuring superior design, top-quality amenities, and, above all, a deep commitment to service. Sharp realized that customers would gladly pay extra for a home away from home experience. But that would be possible only if everyone-from managers and supervisors to bellmen, servers, and housekeepers-was fully engaged. The front-line staff, who have the most contact with guests, can make or break a five-star reputation. Readers will be fascinated to learn how Four Seasons does it, year after year, in more than thirty countries around the world.

Bad Boy Walter Dean Myers, 2009-10-06 A classic memoir that's gripping, funny, and ultimately unforgettable from the bestselling former National Ambassador of Books for Young People. A strong choice for summer reading—an engaging and powerful autobiographical exploration of growing up a so-called bad boy in Harlem in the 1940s. As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Don't miss this memoir by New York Times bestselling author Walter Dean Myers, one of the most important voices of our time.

UnWholly Neal Shusterman,2013-10-15 Thanks to Connor, Lev, and Risa, and their high-profile revolt at Happy Jack Harvest Camp, people can no longer turn a blind eye to unwinding. Ridding society of troublesome teens and, in the same stroke, providing much-needed tissues for transplant might be convenient, but its morality has finally been brought into question. However, unwinding has become big business, and there are powerful political and corporate interests that want to see it not only continue, but expand, allowing the unwinding of prisoners and the impoverished. Cam is a teen who does not exist. He is made entirely out of the parts of other unwinds. Cam, a 21st century Frankenstein, struggles with a search for identity and meaning, as well as the concept of his own soul, if indeed a rewind being can have one. When a sadistic bounty hunter who takes trophies from the unwinds he captures starts to pursue Connor, Risa and Lev, Cam finds his fate inextricably bound with theirs--

The Tiger John Vaillant,2010-08-24 It's December 1997 and a man-eating tiger is on the prowl outside a remote village in Russia's Far East. The tiger isn't just killing people, it's annihilating them, and a team of men and their dogs must hunt it on foot through the forest in the brutal cold. To their horrified astonishment it emerges that the attacks are not random: the tiger is engaged in a vendetta. Injured and starving, it must be found before it strikes again, and the story becomes a battle for survival between the two main characters: Yuri Trush, the lead tracker, and the tiger itself. As John Vaillant vividly recreates the extraordinary events of that winter, he also gives us an unforgettable portrait of a spectacularly beautiful region where plants and animals exist that are found nowhere else on earth, and where the once great Siberian Tiger - the largest of its species, which can weigh over 600 lbs at more than 10 feet long - ranges daily over vast territories of forest and mountain, its numbers diminished to a fraction of what they once were. We meet the native tribes who for centuries have

worshipped and lived alongside tigers - even sharing their kills with them - in a natural balance. We witness the first arrival of settlers, soldiers and hunters in the tiger's territory in the 19th century and 20th century, many fleeing Stalinism. And we come to know the Russians of today - such as the poacher Vladimir Markov - who, crushed by poverty, have turned to poaching for the corrupt, high-paying Chinese markets. Throughout we encounter surprising theories of how humans and tigers may have evolved to coexist, how we may have developed as scavengers rather than hunters and how early Homo sapiens may have once fit seamlessly into the tiger's ecosystem. Above all, we come to understand the endangered Siberian tiger, a highly intelligent super-predator, and the grave threat it faces as logging and poaching reduce its habitat and numbers - and force it to turn at bay. Beautifully written and deeply informative, *The Tiger* is a gripping tale of man and nature in collision, that leads inexorably to a final showdown in a clearing deep in the Siberian forest.
