Get Better at Getting Better Chandramouli Venkatesan,2019 What makes people succeed? Why do some people succeed, while others struggle despite working hard? This book is based on the insight that success is not about how good you are but how powerful a model you have to improve how good you are. Chandramouli Venkatesan calls it the Get-Better Model, or GBM. Successful people are those who are able to build a powerful GBM to continuously improve themselves, and this book will show you how to do it. A GBM is made up of four key components and these must be practised deliberately for getting better-getting better by yourself; getting better by leveraging others; making others get better; and making and implementing a get-better plan. This powerful and life-changing book thus shows how you can constantly get better to unlock your potential at work and in life.

Intermediate Microeconomics Varian,2012-05-01

Microeconomics Austan Goolsbee,Steven Levitt,Chad Syverson,2015-12-03 Like no other text for the intermediate microeconomics course, Goolsbee, Levitt, and Syverson's Microeconomics bridges the gap between today's theory and practice, with a strong empirical dimension that lets students test theory and successfully apply it. With carefully crafted features and vivid examples, Goolsbee, Levitt, and Syverson's text helps answer two critical questions students ask, Do people and firms really act as theory suggests? and How can someone use microeconomics in a practical way? The authors teach in economics departments and business schools and are active empirical microeconomics researchers. Their grounding in different areas of empirical research allows them to present the evidence developed in the last 20 years that has tested and refined fundamental theories. Their teaching and professional experiences are reflected in an outstanding presentation of theories and applications.

In addition, the authors include many extensive real-world examples in the text. These examples are contemporary applications of the theory and are longer and more extensive to show the evolution of the example. Each chapter opens with an example to draw readers into the topic.
