Straight Forward - To More Appointments Phil Jones, 2014-03-24 In today's world of modern selling many people look to overcomplicate simple strategies by adding unnecessary details, making tasks seem more difficult, and presenting their complicated methodologies as fancy acronyms that result in no more than trainers feeling important and the audience left confused. Devreaux's Appointment Larry D. Powell, 2012-05 is the fictionalized account of an impressionable, star-crossed lad coming of age in tiny Bristow, Arkansas, graduating from The University of Arkansas, attaining a degree from Candler School of Theology, and aspiring for a ministerial "appointment" in Arkansas from the Methodist bishop. Bristow is where he learned to 'figure,' process unpleasanties, and ... was abducted. The University of Arkansas is where he excelled academically, married his campus sweetheart, and ... survived the initial attempt upon his life by an unknown assassin. Georgia is where he served a student ministerial "appointment" in rural Greene County, resisted the wiles of a skirt-tugging parishioner, survived a near fatal automobile wreck precipitated by an ambitious small town constable, navigated through numerous personality conflicts of parishioners, and narrowly avoided a cleverly calculated scheme by the anonymous assassin. Arkansas is the setting for Deveaux's initial "appointments" while awaiting the elusive "promotion." Interesting personalities abound: an enigmatic district superintendent, the church member in charge of porno films shown at the fire department, the "unpredictable" church organist, and the unknown assassin. The salient significance of the book's title is discovered in the LAST line of the text.

The Medieval Gentry Malcolm Mercer, 2010-11-04 What were the principal factors that influenced and shaped the behaviour of the gentry during the Wars of the Roses, from 1455 at the first battle of St Albans to the final encounter at Stoke in 1487? It was the gentry who were the natural leaders within their communities and the nobility relied upon them for military manpower, and to act as their mouthpieces at local levels. Consequently, the gentry's ability to persuade their kinsmen and tenants to act in a particular way was crucial, especially their capacity to raise and lead men into battle. This was a critical factor in the outcome of the Lancastrian and Yorkist campaigns. The book begins by outlining how individuals are understood to make decisions and the discussion then moves to the late medieval gentry and the characteristics that define them as a social formation. A definition of the gentry will also be offered. The remainder of the book assesses the relationship between the gentry and the political and social world of the late middle ages.

Drafting Cayman Islands Trusts James Kessler, Tony Pursall, 2006-01-01 The Cayman Islands is one of the world's leading jurisdictions for the establishment of offshore trusts. However, it is not easy for a practitioner to approach the drafting of a Cayman Islands trust instrument with confidence. This eminently practical book solves that problem to near perfection. Arranged as a collection of precedents, with each provision of every precedent explained in detail, *Drafting Cayman Islands Trusts*, could hardly make the drafting process easier. The drafter learns the advantages and potential pitfalls associated with each provision as he or she prepares to draft it. The authors provide specific language, although individual variations (based on the authors' expert guidance) are encouraged. The precedents covered including the following: Discretionary trusts (with and without protectors) Interest in possession trust Reserved powers trust Charitable trust STAR trusts Appointments and retirements of trustees For additional convenience, the precedents are also provided in Word format on a CD-ROM that comes with the book. The detailed annotation answers such key questions as the following: Are hostile beneficiaries clauses valid? Do automatic flee clauses work? What powers can a settlor reserve? How can STAR trusts be used to protect trustees holding high-risk assets? Would STAR trusts be recognised in other jurisdictions? How can one restrict a beneficiary's right to information and trust documents? Can the appointment of a foreign trustee discharge a retiring Cayman trustee? What indemnities should retiring trustees request from successors? As a systematic approach to drafting Cayman Islands trusts, this book will be of immeasurable day-to-day value to practitioners and administrators alike. James Kessler QC is a leading practitioner at the Revenue bar. He is the author of *Drafting Trusts and Wills*, *Will Trusts*, *Taxation of Foreign Domiciliaries*, and *Taxation of Charities*. He is a founder member of STEP and founder of the Trusts Discussion Forum. Tony Pursall is a Cayman Islands attorney-at-law, who practices from the London office of Maples and

Calder. He is a member of the STEP International Committee and of the City of London branch committee of STEP. He is the author of the Cayman Islands section of the World Trust Survey for Trusts andamp; Trustees and is a contributor to the Cayman Islands section of Planning and Administration of Offshore and Onshore Trusts. andquot;All those who work with Cayman Islands trusts, here or abroad, should leap to their feet and applaud James Kessler and Tony Pursall for this splendid work.andquot; Antony Duckworth, Partner, Charles Adams, Ritchie andamp; Duckworth

The Last First Kiss Lucinda Race ,2015-11-06 When life handed Kate lemons, she baked. When culinary school graduate Kate McKenna's dream job with a fancy Boston restaurant slips through her fingers, and the man she loves breaks her heart, she returns to her family and her childhood home in the small town of Loudon. Her life may not be going to plan, but expanding the menu at her mother's coffee shop What's Perkin' offers surprising scope for her talents. If only her love life weren't in tatters, she'd be enjoying the fun. Kate's twin brother, however, is determined to make sure Kate is home to stay, and he's doing a little behind-the-scenes manipulating. Could it be Kate has found true love, and the first kiss she shared with Don is the one that will last forever? The Last First Kiss is the fourth novel in the McKenna Family Romance Series, although each book can be read as standalone. A sweet and clean romantic story with a guaranteed happily ever after. Happy reading!

Frontiers in Statistical Quality Control 6 Hans-Joachim Lenz,Peter-Theodor Wilrich,2012-12-06 In the 1920's, Walter Shewhart visualized that the marriage of statistical methods and manufacturing processes would produce reliable and consistent quality products. Shewhart (1931) conceived the idea of statistical process control (SPC) and developed the well-known and appropriately named Shewhart control chart. However, from the 1930s to the 1990s, literature on SPC schemes have been captured by the Shewhart paradigm of normality, independence and homogeneous variance. When in fact, the problems facing today's industries are more inconsistent than those faced by Shewhart in the 1930s. As a result of the advances in machine and sensor technology, process data can often be collected on-line. In this situation, the process observations that result from data collection activities will frequently not be serially independent, but autocorrelated. Autocorrelation has a significant impact on a control chart: the process may not exhibit a state of statistical control when in fact, it is in control. As the prevalence of this type of data is expected to increase in industry (Hahn 1989), so does the need to control and monitor it. Equivalently, literature has reflected this trend, and research in the area of SPC with autocorrelated data continues so that effective methods of handling correlated data are available. This type of data regularly occurs in the chemical and process industries, and is pervasive in computer-integrated manufacturing environments, clinical laboratory settings and in the majority of SPC applications across various manufacturing and service industries (Alwan 1991).

An Appointment with Death Sachin Nirhali, 2014-04 Amit Choudhary is a vile, unscrupulous builder of Thane, a bustling satellite city of Mumbai. Although married, itches to lay girls on and off. Vaishali Chitnis, a college-going girl, gets ensnared in his murky net, but suddenly, the tables turn and Amit finds himself at the receiving end. While there are many out there who are willing to give anything to see him dead, foremost among them is an eminent lawyer, Amrish Agarwal, who has an ax to grind against him. The lawyer's hassled legal secretary, Ashu Kulkarni, has vowed to get to the root of the murky matter and send him packing from the legal firm. Suddenly Amit gets murdered in his Chandrama bungalow, sending shock waves throughout the city. And while the police are still on the lookout for the elusive killer, a blackmailer, out of the blue, appears on the scene. To make matters worse, a girl is suddenly found dead in mysterious circumstances beneath the secluded seven-story building. Time is running out for the police, who are still groping in the dark. They have to swoop down now on the killer, who is still at large, and apprehend him before the third murder rocks the city.

The Judicial Function Joe McIntyre, 2019-09-16 Judicial systems are under increasing pressure: from rising litigation costs and decreased accessibility, from escalating accountability and performance evaluation expectations, from shifting burdens of case management and alternative dispute resolution roles, and from emerging technologies. For courts to survive and flourish in a rapidly changing society, it is vital to have a clear understanding of their contemporary role – and a willingness to defend it. This book presents a clear vision of what it is that courts do, how they do it, and how we can make sure that they perform that role well. It argues that courts remain a critical, relevant and supremely well-adjusted institution in the 21st century. The approach of this book is to weave together a range of discourses on surrounding judicial issues into a systemic and coherent whole. It begins by articulating the dual roles at the core of the judicial function: third-party merit-based dispute resolution and social (normative) governance. By expanding upon these discrete yet inter-related aspects, it develops a language and conceptual framework to understand the judicial role more fully. The subsequent chapters demonstrate the explanatory power of this function, examining the judicial decision-making method, reframing principles of judicial independence and impartiality, and re-conceiving systems of accountability and responsibility. The book argues that this function-driven conception provides a useful re-imagining of some familiar issues as part of a coherent framework of foundational, yet interwoven, principles. This approach not only adds clarity to the analysis of those concepts and the concrete mechanisms by which they are manifest, but helps make the case of why courts remain such vital social institutions. Ultimately, the book is an entreaty not to take courts for granted, nor to readily abandon the benefits they bring to society.

Instead, by understanding the importance and legitimacy of the judicial role, and its multifaceted social benefits, this books challenge us to refresh our courts in a manner that best advances this underlying function.
